Subject: Assignment Gerry Booth

To whom it may concern,

MainTrack offers application services via an ASP to the aviation market. One of the application products is for the support of integrated MRO and Supply Chain (AuRA from MIRO Technologies). Gerry Booth was contracted to provide optimized business and application processes for our customer Exel Technics. Gerry quickly gathered the information required to allow him to marry the business needs to the software functions resulting in a simplified method of using the software for our customer in addition to creating individual user guides. The services were provided at genuine value for money and I would recommend Gerry to any business looking for effective business or process optimization.

Best regards,

A handwritten signature in black ink, appearing to be "M.R. Kalsbeek". The signature is written in a cursive, somewhat stylized font with several loops and a long horizontal stroke extending to the right.
